PAU IBÁÑEZ

Web Developer

Phone: 673408670

Email: pauibanez2001@gmail.com

I'm a Web Developer from Spain, I've programmed and worked on many projects with people from all over the world, I love programing and Web Development.

EXPERIENCE

JUNE 2022
SEP 2022

Blikk
Full stack developer

Developed a full stack banking application with Flutter, Dart and Go.
My responsibilities included the architecture of the front-end app, the styling, some design (both design creation of certain elements and design interpretation). Development of both front and backend, user authentication with and without OAuth with recovery.

JUNE 2021
SEP 2021

WebHelp / Google
Technical Support Engineer

Provided top Tier customer support for Google Workspace, investigated bugs and errors in the program and provided solutions to the clients. Dealt with investigation and customer communication for big companies using Google Workspace, as well as provided consults for lower tier of support.

JAN 2021
FEB 2021

iEs Informática
OS Installer

Installed and configured the OS platform on countless PCs for their use in the vaccination posts during the pandemic.

NOV 2018
APR 2019

Laforja Sistemas S.L.
Machine Building Technician

Soldered and mounted logic boards for use in public transportation, mounted LED Panels and Configured and tested android devices for their use in digital signage.

EDUCATION

SEP 2016
JUNE 2018

Jesuïtes El Clot - Barcelona
Micro informatic systems and Networks

JAN 2022
MAR 2022

ISDI Coders - Barcelona
Web Development Bootcamp

Voted best Web Development Bootcamp in the world.

STRENGHTS

+ Critical Thinking
+ Teamwork
+ Problem Solving
+ Flexibility
+ Fast-learner
+ Design

LANGUAGES

Spanish and Catalan
English
JavaScript and TypeScript
C# and C++
Dart
Go
SQL
Lua

TECHNICAL SKILLS

React and NextJS
Node
Express and MongoDB
Testing with Jest
Styled-components
CSS and SCSS
Flux and Redux
Git
Flutter and dart
Golang

Recommendation Letter

It is my pleasure to recommend Pau Ibáñez for employment.

I was Pau's immediate supervisor at Blikk Hugbúnaðarþjónusta hf. in Iceland. Pau was hired for a 2-month internship as a remote frontend developer and managed to deliver a prototype mobile application written in Dart with the Flutter framework, along with a backend server written in Go.

We are a small open banking software company in Iceland applying for a financial license and looking to create a platform for open banking services. Unfortunately, we could not hire Pau full-time due to uncertainty regarding the operating license of the company and a lack of resources thereof.

Pau is a talented and driven programmer. He managed to research and come up with solutions to problems and was very keen to figure out how to implement a number of different aspects of the prototype app. He even offered some interesting ideas on how to improve the codebase and coding in a somewhat immature development environment of our small and recently founded startup. He finished tasks according to plan, on time and according to specification and design immaculately.

Pau is a very skilled communicator, both in written and spoken language. He is Spanish but speaks English fluently and with an excellent technical vocabulary. We communicated mostly on Slack but shared a Zoom call every few days and more often if needed. Pau had the initiative to propose some ideas of features to add to the project as well ideas for different implementations on some features. Pau could deliver those ideas concisely and clearly while still maintaining coding velocity. He was also very easy to get along with and chat with and is really friendly.

Pau managed to complete his assignments brilliantly and made an impact on our organization despite his short tenure. I am confident that he will continue to grow as a programmer and make an impact everywhere he goes. Please feel free to contact me if there is anything you would like to discuss further with Pau Ibáñez and I will happily have a chat. I can be reached via email at gunnar@getblikk.is or at LinkedIn (https://www.linkedin.com/in/gunnarkolbeinsson).

Best regards
Gunnar Kolbeinsson
Head of Product
Blikk.
